Station Mangalore, *Dated the* 9th January 1934.

From (Name) M.R.Ry. K. Vittal Shetty, Avl.,
(Designation) Chairman, Municipal Council, Mangalore,

To The Secretary to the Government of Madras,
Industries Department.
M a d r a s.

Sir,

The scheme for the supply of water to the town which has been investigated by the Sanitary Engineer is estimated to cost about Rs 7.4 lakhs. The amount spent by the Council from time to time on the investigation has been over Rs 20,000. The scheme that has been finally investigated provides for a supply of only 6 gallons of water per head per diem for a population of 60,000 and there is no provision for road watering and the other requirements of the town. The population of the town as per census of 1931 is 66,756 and by the time the scheme is executed the population is likely to be about 75,000. The supply being quite inadequate for the requirements of the town the council has for some time

time past been considering the different methods by which the problem of the supply of water to the town could be solved. Experiments were made in boring tube wells in four places by deep drilling operations with the aid of the Power Drill -- obtained from the Director of Industries, Madras. The four bore wells that have been made show signs of good continous supply of water. It is proposed to have a couple of zones of water supply each commanded by a group of bore holes and a power installation and try to see whether the supply of - water could be met with atleast in localities where it is - urgently needed. The council has therefore decided to --- retain the Power Drill and also to ask the Director of --- Industries to give expert advice in selecting sites for -- bore-holes. The Director of Industries is being accordingly addressed on the subject. The council has already paid to Government about Rs 1,000 in shape of hire for the Power Drill besides spending about Rs 4,000/- on the working of the Drill and fixing of pipes etc. The council has authorized me to request Government to waive the hire of the Drill for the period of its retention in Mangalore for further investigating the possibility of an alternative and cheaper water supply scheme for the town. I request that Government may be pleased to accede to the council's request.

A copy of the council's resolution is enclosed.

Chairman, M. C.

Extract from the Proceedings of the Mangalore Municipal Council, dated 6th January 1934.

PRESENT:-

x x x x

2. Read letter dated 19th December 1933 from the Supervisor of Industries, Mangalore, requesting to be informed whether the Power Drill is required for the use of the Municipality or it may be sent out of the town and Councillor Dr. H.V.Adappa's remarks thereon.

The Director of Industries be addressed to retain the Power drill in Mangalore and boring of the well in Bolar will be taken in hand immediately and the order in which it is to be -- operated afterwards will be decided later on.

In the meantime the Industrial Department will be consulted about the Group well system and the Government will be requested to waive the hire of the drill for the period of its retention in Mangalore for further investigating the possibility of water supply scheme in this town. The Director of Industries will be in the meantime requested to send the hand boring drill set.

Dev 147 M/34 Subject: Electric Industrial Engineering and Prospecting and Boring - Waiving power drill - waiver of fees - [illegible]

From the Chairman, Municipal Council, Mangalore, No. 6570 dated 33-34

M,1-2CR 9.1.34.

A.S.

Observe the letter from the Chairman Municipal Council, Mangalore at M,1-2CR.

2. In the circumstances stated in the letter the Chairman asks for waiver of the hire charges of the power drill belonging to the Electric Dept. for further investigating the possibility of an alternative and cheaper water supply scheme for the Mangalore town. Submit that the remarks of the L.S.G. Dept. may be invited in the first instance. On receipt of their remarks, the Dir. of Electricity may be consulted if necessary.

RR: Please see the resolution of the Mangalore

Rural Council on 13 cf. The Council proposes to further investigate the possibility of a private supply scheme for the Town and to Consult the Industrial Dept. about the Group well system. It also requests Govt to waive the hire charges for the Power Drill lent by the Industries' Dept..

2. In this Connection attention is invited to G.O. No. 908 PH dated 25-4-1928 in which the Govt have directed that sanctioned the purchase of boring sets by the Sanit Engineer with the intention that the work of putting down borings for water supply for local bodies should be carried out by the Sanitary Engineering Dept. In para 5 of the above G.O. the Govt have also directed that also declared that there is no objection to a local body obtaining a boring set on hire from ~~local body~~ the Industries Department ~~if it merely wishes~~ to put down a boring in order to obtain information regarding the subsoil, ~~and~~ provided (a) that the Industries Dept can spare a set and (b) the prior approval of the Sanit Engr is obtained to the ~~procedure~~ procedure proposed to be adopted. In the case under consideration it would appear that the Council is object in obtaining the boring sets from the Industries' Dept is to carry out an investigation about the possibility

(S)

(S) (Thus G.O was however not communicated to Rural Councils.)

of introducing the group well system. It is submitted that the proper authority to be consulted in the matter is the Sanr Engr. and that in any case his previous sanction should be obtained before ~~hiring the boring rod from the Industries Dept.~~

It may also be pointed out in this connection that the Sanr Engr had already submitted a report on the investigation of a water supply scheme for Mangalore and the ~~Council was requested to decide~~ proposals were referred to the DPH in Memo no 23383-1D2 dtd 18-6-1928 for remarks and it was requested to report whether it was prepared to accept the scheme and also the arrangements for financing it on the half grant basis. As the Council did not reply to this reference the papers were recalled in G.O. No 2319 PH dt 7-11-1929. In the above circumstances any expenditure of Govt funds on further investigation appears to be a waste of money. Before taking further action in the matter the remarks of the Sanr Engr may be invited, ~~if a draft letter is sent for approval. It may arise after perusal by the Dev Dept~~.

Dev may see, before the file is sent us. to the Sanr Engr.

p 3 n.

The C.O.C. Mangalore reports that the Municipal Council has resolved to ~~further~~ investigate the possibility of a water subply scheme for the town and to connect the Industries Dept about the Group well system. He also reports that experiments have already been carried out ~~with~~ in boring tube wells with the aid of the Power Drill obtained from the Director of Industries. The ~~Chairman is informed that~~ attention of the Chairman is invited to Memo No 23583-P Dept P.H. dt 16-6-1928 in which certain proposals ~~submitted by~~ for a water subply scheme submitted by the Sanit Engr ~~have been~~ referred to the Municipal

for remarks and also to G.O.Nr 2719 P.H. (C)
d 7-11-1949 in which the Council was informed
that the question of providing a water
supply scheme for the town would be
considered after the receipt of the
reply to the above reference.
No reply has yet been received from
the Council on the subject. Any further investi-
gation required to find out an alternative
and cheaper water supply scheme should
be undertaken by the Sanitary Engineering
Dept. The C.O.C.
is, therefore, informed that no further experiments shall be carried out
by the Council in boring tube wells with
the aid of the Power Drill obtained from the
Industries Dept. The Council may
address the Sanitary Engineer in
regard to the carrying out of any such
investigation experiments as he has a separate
stock of boring sets for the use of
local bodies - vide
